

Sponsorship Prospectus

Princeton Quantitative Traders

2026

This document contains information on the various options to sponsor the Princeton Quantitative Traders Club for 2026. Princeton Quantitative Traders (PQT) is Princeton's premier quantitative finance group consisting of the brightest Princeton (undergraduate and graduate) students who are interested in quantitative finance. We are formally recognized by Princeton's Office of the Dean of Undergraduate Students as an undergraduate student organization.

PQT is uniquely positioned to offer exceptional students opportunities to remain **consistently engaged in quantitative finance** through **weekly educational sessions or hands-on projects**. We also want to introduce talented students from all backgrounds to quantitative finance as a potential career path. In addition to weekly events and industry engagement opportunities, we will be hosting our second annual schoolwide **Princeton Trading Competition** in **Fall 2026**.

As of Feb 2026, we currently have over **127 members** and are growing rapidly. We would appreciate your support in growing this club and providing more educational opportunities to our members and the broader Princeton community. We would like to thank our current sponsors Citadel, Jane Street, D. E. Shaw & Co., HRT, Five Rings, and Tower Research for their continued support.

We are open to discussion of these options if there are any specific circumstances, requests, or ideas you would like to review. We look forward to working with you!

Please do not hesitate to contact us at pqt@princeton.edu or grace.im@princeton.edu with any questions or for further information.

Sponsorship Tiers

Sponsorship Tier	Benefits
Bronze - \$5,000	● Bronze sponsors may distribute promotional materials and merchandise to PQT members (127 members and growing). ● We will assist in sending recruitment and event advertisement emails to our internal members-only mailing list. ● Recognized as a sponsor on our club website and social media.
Silver - \$10,000	In addition to the benefits available to Bronze sponsors, ● Assistance in organizing on-campus or virtual events, such as info-sessions, mixers, competitions, etc. ● Assistance in sending recruitment and publicity emails school-wide. ● Silver sponsors have the opportunity to set up a physical booth to interact with participants at the Princeton Trading Competition. ● Recognized as a sponsor on all club emails and educational materials.
Gold - \$14,000	In addition to the benefits available to Silver sponsors, ● VIP support, such as: ○ Assistance with setting up venues, procuring catering, advertising and directing students to the event ○ Personalized events with specific students or faculty members, such as meals/game nights etc. ● Sponsors are invited to formulate projects or educational opportunities for club members to work on, or for participants to attempt during the Princeton Trading Competition. ● Sponsors are invited to speak to all participants during the opening or closing of the Princeton Trading Competition. ● Recognized as our primary sponsor. ● Email Outreach: Silver sponsors can send out one email a week to all club members.
Platinum – \$20,000	In addition to the benefits available to Gold sponsors,

	● Premium access to talent: Complimentary access to PQT's resume book. ● Exclusive recruiting event: Host up to two exclusive company info sessions or workshops with dedicated promotion. ● Highest visibility: Your logo will be the most visible on club materials, website, and major events. ● VIP Email Outreach: Platinum sponsors can send out up to three emails a week to all club members.

Additional Sponsorship Opportunities

We offer our sponsors the opportunity to support us further through the purchase of

Resume & Transcript Book Access – \$2500

We have an extensive compilation of **resumes and transcripts** from top students, both undergraduate and graduate, who are interested in quantitative finance. This resume book will also include prospective participants for the Princeton Trading Competition. This book provides direct access to a strong pool of candidates for internships and full-time roles.

Additional info about members

We have 127 members (and growing) and the breakdown by class year is:
